VALVES ACTUATORS INSTRUMENTATIONS

**A science for
perfection**

 OIL & GAS INSTRUMENTATION

OIL & GAS INSTRUMENTATION

continues innovation

Our company offers valves, actuators, instruments, flow computers & automation parts, chart recorders, differential pressure units (DPU), flow meters, indicators, switches and transmitters.

*Controls Supply Chain the preferred supplier of
oil & gas instrumentation worldwide.*

We distinguish ourselves by a personalized approach and product expertise. We are able to think alongside our clients and always give a solution thanks to continual innovation.

**A
SCIENCE
FOR
PERFECTION**

TAILORMADE SOLUTIONS

excellence in performance

Our strength is, we are willing to think “outside the box.”
This frequently leads to tailor-made solutions for our clients.

Through all parts & instrumentation, we provide you with
the best tailormade recommendations. Our product line
include dependability, durability, quality, efficiency, service
orientation, and innovation.
