Standard rates for Service and Maintenance

Hourly rates

Service engineer, basic rate for normal travel and working hours	€ 250
Engineering hours (3D drawing, thermal engineering and CFD modulating)	€ 495

Rates Scios gas technical inspections

Burner inspector (Scios scope 1 to 5 and 7a/b) * (Scope 6, NOx measurement, only on request)	€ 250
--	-------

This hourly rate includes the work of one inspector, application of equipment and reporting of the inspection. The amounts mentioned do not include re-inspection costs. These are calculated separately once the re-inspection has been carried out. The costs for a re-inspection are for the year 2024 and € respectively, € 195.00 per hour and charge € 2.95 per kilometer. If the boiler and/or oven meets the regulations, we will issue a declaration of "no objection" through a recognized inspection agency.

Hourly rates for electrical inspections

Electrical specialist industrial installations (including NEN-3140, NEN 1010)	€ 250
---	-------

Travel costs

Mileage allowance per km driven. Other	€2.95
--	-------

Overtime allowances

On working days after 8 basic rate hours. On Saturdays, between 7AM and 6PM. On Sundays and public holidays	200%
---	------

Further provisions

If through no fault of CSC hours arise, these will be charged as normal working hours. The service and maintenance report is drawn up by the technician on site and must be signed by the client. The service and maintenance report forms the basis for the final invoice. CSC terms and conditions of delivery apply exclusively to all service and maintenance orders.
