 OIL & GAS INSTRUMENTATION

# continues innovation

OIL & GAS INSTRUMENTATION

Our company offers valves, actuators, instruments, flow computers & automation parts, chart recorders, differential pressure units (DPU), flow meters, indicators, switches and transmitters.

*“Controls Supply Chain the preferred supplier of oil & gas instrumentation worldwide.”*

We distinguish ourselves by a personalized approach and product expertise. We are able to think alongside our clients and always give a solution thanks to continual innovation.

**A  
SCIENCE  
FOR  
PERFECTION**

# excellence in performance

TAILORMADE SOLUTIONS

Our strength is, we are willing to think “outside the box.”  
This frequently leads to tailor-made solutions for our clients.

Through all parts & instrumentation, we provide you with  
the best tailormade recommendations. Our product line  
include dependability, durability, quality, efficiency, service  
orientation, and innovation.
